GAME DESCRIPTION

Carnival Crane is a two station crane machine. The crane uses a mechanical claw, which the player moves using the joystick control located on the exterior of the machine. The button on the joystick is pressed when the player has positioned the claw. The claw drops automatically and attempts to grab an item for retrieval. If the claw does not grab a prize or the prize drops in transit, the claw will return to the prize drop area, but no prize will be awarded.

CONDITIONS

- 1.) The maximum price to play shall not exceed values set forth in N.J.A.C. 13:3-3.4.
- 2.) Payout must occur immediately upon a win.
- 3.) Game shall be clean and free of debris.
- 4.) No prize shall be displayed in the playfield that would exceed the claw mechanism capability.
- 5.) Game shall be installed and maintained according to manufacturer specifications.

This certification is not a license to operate the captioned gambling device. The device may only be operated in a location specifically approved for the operation of amusement games pursuant to the Law and Regulations.

The Commission reserves the right to suspend, revoke or modify this certification upon notice to the manufacturer and/or applicant.
